About the course

The English ATAR course focuses on developing students' analytical, creative, and critical thinking and communication skills in all language modes, encouraging students to critically engage with texts from their contemporary world, the past, and from Australian and other cultures. Through close study and wide reading, viewing and listening, students develop the ability to analyse and evaluate the purpose, stylistic qualities and conventions of texts and to enjoy creating imaginative, interpretive, persuasive and analytical responses in a range of written, oral, multimodal and digital forms.

A1ENG

Unit 1 ATAR English

The focus of this unit is how meaning is communicated through the relationships between language, text, purpose, contexts and audience. This includes how language and texts are shaped by their purpose, the audience for whom they are intended and the contexts in which they are created and received.

Through responding to and creating texts, you will consider how language, structure and conventions operate in a variety of imaginative, interpretive and persuasive texts. A speaking/listening assessment is included at least once.
