Unit 2 Macroeconomics

Macroeconomics is the study of the whole economy. This unit focuses on Australia's macroeconomic performance using the circular flow of income model. The business cycle results in changes in the levels of output, income, spending and employment in the economy, which, in turn, have implications for economic growth, inflation and unemployment. You will also examine the role of the government in the macroeconomy.

Prerequisites

Minimum C grade in
Year 10 Computing or
equivalent standard

Type of Assessment

20% Investigation
20% Data Interpretation/Short Answer
20% Extended Answer
40% Examination

Year of Study

Year 11

Costs

Unit Cost \$30
iLearn \$50
