Design and Technology

Material Design and Technology - Metal | MDTM

G2MDTM

Unit 2 Product design

The focus of this unit is production fundamentals. You will be introduced to principles and practices of design, along with metalworking fundamentals to manufacture products for yourself. You will learn to communicate various aspects of the design process within the structure of making your product. You will learn about metal properties and processes, and how to use a variety of tools and machines safely and effectively in the metal workshop.

 Prerequisites Nil	 Type of Assessment 25% Design 60% Production 15% Response
 Year of Study Year 11	 Costs \$90
